

Lottie

It was only \$200 I gave you.
I saw the article in the Dispatch, which the
Sun changed very much so as to rile Mr.
Greeley. The Sun put in much about the
Tribune.

We now propose to come on Wed.
night & stay over the sale. Everything
seems to be going on right & I hope it will
not have to be postponed.

I wish you would get some
powders of Dr. Marcy. It seems to me
that the "hump" is ^{hardening} growing. I should
even be willing to paint it.

I'm sorry I can't make fun for
you. But you must try to for me.

The New Board will make Martin
B. Brown Corporation printer.

I shall see you soon

Edwin
